DETAILED ACTION***Election/Restrictions***

1. Newly submitted claims 23-33 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: newly added independent claim 23 (and all claims depending therefrom) is distinct from the originally claimed invention because it does not require any particular order for the layers. The claim does not require the structure set forth in originally presented claim 12 wherein the interlayer is located above the non-magnetic layer. Thus, it is patentably distinct from the originally presented claims. Newly presented claim 29 is directed to a structure which does not include a non-magnetic layer with bcc <200> PO as required by originally presented claim 12. Thus, this claim (and claims depending therefrom) is patentably distinct from the originally presented claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 23-33 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. This application is in condition for allowance except for the presence of claims 23-33 directed to an invention non-elected by original presentation. Applicant is given **ONE MONTH or THIRTY DAYS** from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case

to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

Claim Rejections - 35 USC § 102

3. The rejection of claims 12-13, 16-17, and 19 under 35 U.S.C. 102(e) as being anticipated by Oikawa et al. (US 2003/0087131) is withdrawn in view of Applicant's amendments.

4. The rejection of claims 18 and 20 under 35 U.S.C. 103(a) as being unpatentable over Oikawa et al. (US 2003/0087131) in view of Bian et al. (US 6858331) is withdrawn in view of Applicant's amendments.

Allowable Subject Matter

5. Claims 12 and 15-20 are allowable over the closest prior art to Oikawa et al. Oikawa et al. fails to teach or suggest the claimed multi-layered interlayer structure having the claimed layers in the claimed order wherein the second interlayer is formed from a Ru-Y alloy material. The prior art fails to teach or suggest a motivation to modify the structure of Oikawa et al. to include such a layer.
